

User Productivity Kit (UPK)

- UPK is a screen recording software used by the Central Team to create video simulations of UCPath transactions.
- UPK captures developer's actions on the screen and converts them into step by step video guides.
- UPK simulations have 3 modes – See It! Try It! Print It! Click on desired mode to access the simulation.
- Simulations open in a new window; use the 'Pause' button to watch the simulation step by step.
- There is no audio in UPK.
- Only one UPK window can be open at a time.
